About Me

Motivated and curious B.Tech student with a strong interest in Artificial Intelligence and Machine Learning. Seeking opportunities to apply my technical skills, work on real-world AI projects, and continuously learn advanced technologies to become a skilled AI Engineer.

Education

Amrita Vishwa Vidhyapeetham **2024 – Present**
Bachelor of Technology – Artificial Intelligence and Data Science CGPA: **8.59** Amritapuri, *India*

Sri Chaitanya Junior College **2021 - 2023**
Higher Secondary Education - MPC **Percentage: 91.8%** Vijayawada, *India*

Sri Vidhya High School **2019 – 2022**
Secondary Education **Percentage: 100%** Guntur, *India*

Projects

Smart IOT Wearable Safety Devise - Using ESP32 **(2025)**
Technologies: Arduino (ESP32), Accelerometer Sensor, GPS Module, GSM/WiFi, Embedded C, Arduino IDE.

- Developed an **IoT-based wearable safety device** that detects sudden falls and sends emergency SOS alerts with location information to predefined contacts.

Cantilever Beam Analysis using ANSYS (Finite Element Analysis) **(2024)**
Technologies: ANSYS Workbench

- Performed **finite element analysis of a cantilever beam using ANSYS** to study stress distribution, deformation, and the effect of mesh discretization and element types

Line following Robot Interaction **(2024)**
Technologies: Arduino IDE

- Developed a **smart home safety system using IoT** to monitor potential hazards such as gas leaks, fire, or intrusions and send real-time alerts to users for quick action.

Multi-Source Power Management using OR-ing Circuit
Technologies: Proteus

- Designed and analyzed an OR-ing circuit to combine multiple power sources or signals, ensuring reliable power supply and preventing reverse current between sources.

Swarm Robotics for Smart Irrigation
Technologies: Deep learning

- Designed a **swarm robotics system for smart irrigation** where multiple robots coordinate to monitor soil moisture and optimize water distribution across agricultural fields..
-

Certifications

- **Softskills** - Infosys SpringBoard (2025)
- **Deep learning with Python** - Data Camp (2025)

Skills

- **Programming Languages:** Python, Java, JavaScript and MATLAB.
- **Development Tools:** Git, Visual Studio Code, NetBeans, Eclipse and Jupyter Notebook.
- **Web Development:** HTML, CSS
- **Backend and Databases:** MySQL
- **Soft Skills:** Strong communication, active listening, adaptability, leadership and presentation abilities.
- **Languages:** Telugu, Hindi, English
